Q.26 Read the paragraph and answer the question :

3

Our changing Earth, our Environment

Sita's home is on 2nd floor. After coming back from school, she was having lunch. Suddenly she felt fan, chair and other objects shaking. When she called her mother, her mother asked her to move to a safe place. That was earthquake. She immediately went down to the playground along with her parents. Where many people were there. They were talking about earthquake only. Sita asked her mother about earthquake. Her mother told her that earthquake occurs when there is a movement in the earth's plates. This cannot' forecast. But if we are ready beforehand, then we can definitely reduce its harmful effects. Then suddenly a par neighbor's building fell down due to earthquake. Sita's father immediately ran to that side. He saved the stuck in the rubble and gave them immediate first aid.

(a) What is the reason of earthquake?

(b) How do we feel the earthquake?

(c) What are different steps taken by school to protect from the earthquake
